1 CONTEXT OF THIS COURSE IN THE STUDENT'S PROGRAM

The Study of Good and Evil

The present course is the third of the three Humanities courses and is part of the General Education courses. Humanities, as part of the general education component, is intended to promote personal and social development and to give students a foundation that will help them understand their roles in contemporary society as members of the work force, citizens and individuals. The three sets of objectives and standards in humanities propose common frameworks for understanding the experiences, ideas and values of humankind and their diversity. They are aimed at developing critical thinking, reinforcing the ancillary skills involved in careful reading, organized writing, and well-developed oral presentations, and, where appropriate, improving media and computer literacy. Once students have mastered the three-stage process of analysis, synthesis and evaluation, they will be able to reflect in an informed manner and to communicate what they have learned in an organized and coherent fashion.

2 STATEMENT OF THE COMPETENCY

To educate students to live responsibly in society.

3 MINISTERIAL OBJECTIVES OR COMPETENCIES

Apply a critical thought process to ethical issues relevant to the field of study. (CODE 4HUP)

4 FINAL INTEGRATION OBJECTIVE OF THIS COURSE

At the end of this course, the student will have acquired the ability to demonstrate rational, critical and ethical thinking.

5 TEACHING AND LEARNING STRATEGIES

The following teaching methods are used:

Pedagogy through questioning and discussion; lectures; workshops, debates and other activities to develop students' abilities to gain critical insight on ethical issues. Work at home will be necessary. Work at home includes completing the assigned readings, preparing answers to questions based on the readings, reviewing lecture notes, and studying for exams. For the course to be a stimulating and motivating experience, students' participation is necessary.

Success in this course requires a regular and constant effort from students.

LÉA, Teams and Moodle will be used

Each week students must go on LÉA to view the course outline, to download files and to read important messages sent by the teacher.

Each week students are expected to attend Teams meeting

Students are expected to attend Teams meeting at the time the class is scheduled. Meetings will not last more than 3 hours.

- Materials to prepare for videoconferences will be deposited on LÉA. These might include commented PowerPoint presentations (audio/video), but mostly exercises to do and readings.

During videoconference

- The teacher will answer questions from the students in order to explain the theoretical content. Educational activities will be planned at each meeting to support understanding and integration of the different content.
- Debating ideas will also be an important part of this course

Supervising work during videoconferencing

- The professor will closely supervise the work of students as they complete exercises and will answer their questions to monitor their individual process towards integrating the concepts to be mastered.

Learning activities include:

Note-taking in class or online, close readings of texts or parts of texts; small group discussions; viewing of films (documentaries and other genres); listening to online power points provided by the teacher, as well as written and video assignments referring to specific readings and theories discussed in class.

A review of certain exercises and evaluations will be conducted during videoconference to allow the student to identify strengths and weaknesses in order to improve.

It should be noted that each week the student will have to devote three hours of personal work outside of the course periods.

10 REQUIREMENTS TO PASS THE COURSE

1. Passing Mark

The passing mark for this course is 60% by adding the marks for the theory and practical work for the course.

2. Attendance for Summative Evaluations

Students must be present for summative evaluations and must comply with the instructions given by the instructor to carry out the evaluation activity and written in the course outline. Unexcused tardiness for a summative evaluation could result in being excluded from the activity. Any absence from a summative evaluation that is not due to serious reasons (illness, death in the family, etc.) could result in a mark of zero (0) for the activity.

Students are responsible for meeting with the instructor before an evaluation activity is held or immediately upon returning to ENA to explain the reason for an absence. Proper documentation, such as a medical certificate, a death certificate, legal papers, etc., must be shown if the reason for absence is serious and recognized as such by the instructor(s), arrangements will be made between the instructor(s) and the student to make up the activity.

3. Submitting Assignments

All assignments must be submitted by the date, hour and location designated by the instructor(s). Late assignments will be penalized 10% per day that they are late and will receive a mark of zero (0) after one week.

4. Presentation of Written Work

The instructor(s) will provide students with information and guidelines regarding the presentation of written work. When the presentation of an assignment is unacceptable, the work will be penalized as a late assignment until an acceptable version is submitted. In this case, the penalties for late work will be applied.

Students must follow the standards adopted by the Cégep for written work (« *Normes de présentation matérielle des travaux écrits* »). These can be found in the documentation center on the Cégep web site www.cegepmontpetit.ca/normes under the heading **Liens éclair, Bibliothèques, « Méthodologie »**.

Student Proficiency in the Language of Instruction. The purpose of this policy is to foster student proficiency in English, the formal language of instruction in this class. Emphasis on literacy and communication skills (writing, reading, speaking, and listening) is essential to students' academic and professional success.

Students must (1) use the English language appropriately both in the written and oral communications; (2) use the specialised vocabulary taught in class appropriately in their assignments, papers and exams.

Spelling, grammar, and vocabulary errors, found in assignments and papers, will result in a lower grade (up to 10% of the grade). Any paper presenting too many errors will be refused; the student will then be allowed to redo it, although a penalty for work turned in late will be applied.

11 METHODS OF COURSE PARTICIPATION

For online classes:

By attending online classes through videoconference technology, the student understands that his image and voice may be captured on video in the context of his courses and agrees to this. Videos are only visible during live classes and by the teacher and other participants exclusively.

For pedagogical reasons, some courses may be recorded. It is the teacher's responsibility to clearly inform students beforehand when their images and voices are to be captured on video. Any student opposed to his image and/or voice being recorded may turn off his camera and microphone but will be required to participate in writing through means established by the teacher. Otherwise, students who activate their cameras or their microphones are deemed to have agreed to their images and voices being taped. These recordings of courses will be available for the express and sole use of those students registered in the courses for the duration of the semester. It is strictly forbidden to broadcast these recordings in any public manner or to use them other than for pedagogical purposes.

No student may record an online course without prior consent from the teacher. Students whose personal information (voices and images) is captured on video may exercise such remedies as provided by the right to access records and the right of rectification per the Act respecting access to documents held by public bodies and the protection of personal information through the Cegep's Secretary General's Office.

12 PSYCHOLOGY DEPARTMENT POLICIES - WINTER 2021

• EXCUSED ABSENCES AND UNEXCUSED ABSENCES

- ❖ If students are absent, it is their responsibility to find out what material was covered, and which assignments were given by the teacher. They will not be able to do a make-up evaluation unless they submit a valid justification.
- ❖ Students who are absent for an exam or any form of in-class evaluation or who do not submit an assignment on time will receive zero (0) as a mark. However, in serious situations and upon presentation of a valid written justification of their absence before the following course, the teacher may permit a make-up. Similarly, students who do not hand in an assignment on time or who are absent for an evaluation could receive an exemption when a valid written justification is submitted (see the P.I.E.A, Articles 5.2.5.1 and 5.2.5.2).
